## About Wagging Tails Dog Services

My name is Melissa Gabor and since 2005 I have been the owner and operator of Wagging Tails Dog Services. At Wagging Tails you deal directly with the owner and not with their constantly changing staff. This approach allows me to maintain high quality and personalized service for each Wagging Tails customer. I keep my clothing and vehicle unmarked to minimize attention during visits to your home. I am insured and bonded to provide further peace of mind.

Prior to the beginning of service, I meet all potential clients for a no charge consultation. This gives potential clients a chance to interview me to see if I can best meet their needs. During this time I assess the individual needs of both the pet parent and their pet.

Wagging Tails Dog Services is a member of the All Canadian Pet Services Network (ACPSN). The ACPSN is a professional organization for Pet Sitters and Dog Walkers across Canada and is the only organization dedicated exclusively to Canadian Pet Care providers. I have successfully completed the ACPSN Pet First Aid training, so that you can be assured that your friend is in capable and caring
